*Dear Tony,*

**St Mary le Wigford, Lincoln**

Bless you for your very efficient and exciting efforts to help us keep our lovely Saxon tower, with its architecturally mongrel church attached, in a good state to carry on for another 1,000 years.

I was particularly grateful for your kindness towards the media as good publicity is vital to our fund raising efforts. Your good humoured response to their requests, when you must have found them an irritating interruption as you dangled on a rope so high off the ground, may well be as important to our overall plan as the excellent work you managed to achieve when they let you get on with it.

I have every confidence I shall be asking you to visit Lincoln again and to exercise your skills on the slightly posher Saxon tower at St Peter at Gowts before too long.

Until then, our best wishes and prayers to you and your team,

*Yours aye,  
Jeremy*
